

## Vacancy IRATA Blade Technician

### Location Noord-Scharwoude, The Netherlands / (Inter)national and Long Rotations

The Rope Access IRATA blade technician has the leading role in the companies' daily operations. You assess, and repair damages and you advise on the best and most efficient service solutions and maintenance. An exciting and dynamic role in which you will be responsible for ensuring our company's high reputation in the fast-growing wind industry and contribute to the ongoing evolution of Redak. You travel both nationally and internationally, onshore, and offshore for projects. The position is based in the Redak Head office in the Netherlands.

#### **Who are you?**

You're an experienced, motivated, and ambitious individual with eye for detail. You have extensive experience in the wind industry and working with wind turbine blades. You are familiar with composite materials and Vestas blades.

Your communication, networking, and teamwork skills are exceptional, and you maintain a professional attitude towards the client. You are safety minded and motivated to help us maintain our high standard of work and safety. Do you fit the profile? Then we want you!

#### **Role & Responsibilities**

- Making repairs to the internal and external surface and structure of wind turbine blades.
- Use logic and reasoning to identify the challenges and provide various solutions or approaches.
- Conduct tests and inspections to evaluate quality and performance.
- Act according to the safety laws and legislations.
- You take ownership and you know how to successfully complete your projects.

#### **Profile**

- At least one year of experience with composite materials.
- Driver's license B and BE (BE can be obtained).
- Physically fit (pass the full medical examination test).
- Extensive Vestas Blade experience.
- Blade B or higher certification.
- GWO certification.
- VCA certification.
- Medical certification.
- Rope access IRATA 1, 2 or 3 certification.
- VOP NEN3140 certification.
- Certificate of Conduct.
- Valid travel documents.
- Willing to go on long rotations.
- Good English written and spoken skills.

### **What we offer**

We offer an environment where people feel comfortable to share ideas and thoughts and embrace a workplace where all people can thrive and continuously grow. You will become part of a young and dynamic team in a fast-growing industry. A suitable salary and attractive benefits are included.

Are you ready to climb that wind turbine and embark on a journey with us? Email your cover letter and resume to [work@redak.nl](mailto:work@redak.nl).

### **Additional information**

Redak Service and Maintenance is based in Noord-Scharwoude, the Netherlands.
